T&G Flooring Nail Set

CLEAT CARD™ is a T&G flooring nail set designed to quickly and correctly set an incompletely driven “High Cleat” in T&G flooring installations, without damaging the flooring edges or bending the cleat.

CLEAT CARD™ is designed to fit in the nailing groove at a 45-degree angle. Placed next to the “High Cleat” and “Swiped” over the cleat while tapping with a hammer, CLEAT CARD efficiently supports and progressively sets the cleat.

CLEAT CARD™ is made of heat-treated alloy for a lifetime of use. It’s fast, easy and fits in your pocket.
